#### THE HIGHLAND COTTON MILLS

The Highland Cotton Mills, a corporation, located at High Point, North Carolina, is engaged in the production of yarn. During the first and second quarters of 1944, the corporation diverted 324,631 pounds of yarn to unrated orders in violation of General Conservation Order M-317. On or about January 30, 1944, the corporation refused to accept a rated order from its customer, and although subsequently it did accept such order, it refused and failed to fill the order in preference to other unrated or lesser rated contracts or orders, in violation of

Priorities Regulation No. 1. The responsible officers of the corporation were familiar with the provisions of Conservation Order M-317 and Priorities Regulation No. 1, and its actions constituted wilful violations thereof. These violations have diverted critical materials to uses not authorized by the War Production Board and hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered that:

§ 1010.687 Suspension Order No. S-687 (a) During the first and second quarters of 1945, The Highland Cotton Mills, its successors or assigns, shall deliver or set aside for delivery on rated orders its entire production of yarn in the counts of 8/1 through 18/1, and shall not deliver any of such yarns on unrated orders unless specifically authorized to do so by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve The Highland Cotton Mills, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

ICELAND HERRING

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.\*

Maximum Price Regulation No. 512 is amended in the following respects:

1. Section 1 is amended to read as follows:

Section 1. What this regulation does. This regulation fixes maximum prices for sales of Iceland herring by importers and wholesalers. The maximum prices for sales by wholesalers of Iceland herring which they import into the Continental United States are the maximum prices established for sales by importers in section 4. The maximum prices for sales by wholesalers of Iceland herring which they purchase from a domestic supplier are the maximum prices established in section 5.

2. Section 2 is amended to read as follows:

Sec. 2 Relation to other regulations. The provisions of this regulation supersede the provisions of General Maximum Price Regulation and Maximum Price Regulation No. 421 with respect to sales by importers and wholesalers of Iceland herring for which maximum prices are established by this regulation.

3. Following section 3 a new section 3a is inserted to read as follows:

SEC. 3a. Where this regulation applies. The provisions of this regulation shall apply to the forty-eight states of the United States and the District of Colum-

4. Section 4 is amended to read as follows:

Sec. 4. Maximum prices for sales of Iceland herring by importers. (a) The maximum prices for sales of Iceland herring by an importer are set out below in Table A and Table B. The prices in Table A apply to sales of Iceland herring other than sales of Matjes herring of the 1944 45 pack made before October 30, 1945. The prices in Table B apply to sales of Matjes herring of the 1944-45 pack made before October 30, 1945. No sales of Iceland herring may be made by importers at Table B prices after October 30, 1945. Except for service and delivery sales to retailers or purveyors of meals the prices are f. o. b. the seller's warehouse. The prices for service and delivery sales are prices for sales to retailers and purveyors of meals on a delivered basis to the customer's usual receiving point. The maximum prices are gross prices and the seller shall deduct therefrom his customary allowances. discounts and differentials to purchasers of different classes. An importer may add the actual cost of transportation from the port of entry to the importer's warehouse where his warehouse is not at that port. In no case may the rate exceed the carload rail freight rate.

(b) The notification provisions in section 5 do not apply to deliveries of Maties herring of the 1944-45 pack made before October 30, 1945.

(c) Containers. For container sizes not listed in paragraph (a) the price shall be a price determined by the Office of Price Administration. Such determination shall be made upon written request addressed to the Office of Price Administration, Washington, D. C. and accompanied by a sworn statement showing costs and usual differentials.

5. A new section 5a is inserted to read as follows:

Sec. 5a. Maximum prices for sales of Iceland herring by wholesalers to retailers, commercial, industrial and insti-tutional users—(a) General instructions. A wholesaler's maximum price for sales of each "item" of Iceland herring (except sales of Matjes herring of the 1944-45 pack made before October 30, 1945) is the result obtained by multiplying his "net cost" by the mark-up applicable to the type of sale. Matjes herring and headless herring shall be considered separate items, and separate ceiling prices shall be figured for each container size. The wholesaler's maximum price is computed as follows:

He must first find the "net cost" of the unit in which he receives delivery of the item (i. e. barrels, one-half barrels, etc.). His maximum price for that item is obtained by multiplying his "net cost" by the appropriate mark-up figure set out in paragraph (c) of this section. Thus if he receives Matjes herring in one-half barrels, he must multiply his net cost of the one-half barrels by the appropriate mark-up figure and the result is his

<sup>19</sup> F.R. 1883.

<sup>\*</sup>Copies may be obtained from the Office of Price Administration.

maximum price for sales of the item received and sold in one-half barrels. If he also receives Matles herring in barrels, he must calculate the maximum price for sales of the item received in those units, etc. (1) All calculations of maximum prices resulting in fractions of cents must be rounded out to the nearest cent; (2) If the wholesaler sells an amount less than the unit in which he received delivery his maximum price must be reduced proportionately rounding any fractions to the nearest higher cent.

(b) Net cost. The wholesaler's "net cost" must be based upon the most recent delivery to him of the item prior to. January 13, 1945. His net cost is the amount he paid his supplier for that delivery less all discounts except the discount for prompt payment plus all transportation charges he paid except local trucking, hauling and handling charges. (1) The wholesaler's net cost must be calculated on purchases of a customary quantity from a customary type of supplier delivered to his customary receiving point by a customary means of delivery. (2) The seller must not calculate his net cost on a purchase made at a price higher than his supplier's maximum price.

(c) Wholesaler's mark-ups for different class of sales. The mark-up which applies in any particular type of sale depends upon the kind of service performed by the wholesaler in that particular sale.

(1) Cash and carry sales. Cash and carry sales are sales of Iceland herring by wholesaler where the wholesaler does not deliver to the purchaser's place of business. The mark-up for this class of sale is 1.13.

(2) Service and delivery sales. Service and delivery sales are sales of Iceland herring by a wholesaler where the wholesaler delivers such Iceland herring in his own motor truck or wagon or in a motor truck or wagon used solely for his own delivery from his established place of business to the place of business of his customer. The mark-up for this class of sale is 1.19.

(d) Invoices. The wholesaler must write his net cost per unit either on his invoice or other record of the price he paid for the item, or on a separate slip of paper attached to that invoice or other record. The wholesaler must keep separate, or mark or tag plainly, all invoices or records showing the net cost of the unit in which he received delivery and which he used in figuring his maximum prices. The invoices and records he used in figuring his maximum prices are his means of proving that his maximum prices are right.

(e) Matjes herring of the 1944-45 pack. The wholesaler's maximum price for sales to retailers, commercial, industrial and institutional users of Matjes herring of the 1944-45 pack made before October 30, 1945, is the sum of his net cost determined in accordance with the rules set out in paragraph (b) of this section plus the appropriate dollar-andcents mark-up provided in the following Table. His net cost must be based on

the first delivery to him of Matjes herring of the 1944-45 pack. His net cost must be calculated on purchases of a customary quantity from a customary type of supplier delivered to his customary receiving point by a customary means of delivery. Subsection (d) is also applicable to sales of this item.

(1) Mark-ups.

	Service and de- livery sales	Cash and carry sales

(2) No sales by wholesalers of Iceland herring may be made at the prices fixed in accordance with this paragraph (e) after October 30, 1945.

6. In section 13 the following definition is inserted between the definition of "Matjes herring" and the definition of "purveyor of meals". "Matjes herring of the 1944-45 pack" means Matjes herring which was imported into the Continental United States between the dates January 1, 1945 and October 30, 1945.

This amendment shall become effective January 13, 1945.

#### CONSENT ORDER

Max M. Leon, doing business as the Whole-Sum Products Company, at 234 North Front Street, Philadelphia, Pennsylvania, is engaged in the business of manufacturing and packing confections. He is charged by the War Production Board with having used, between April 1, 1944 and November 21, 1944, new fibre shipping containers in excess of the quota permitted for that period by Limitation Order L-317; the excess being 41,300 pounds or 292,753 square feet. On November 22, 1944 he had an inventory of 29.850 pounds or 211.670 square feet of new fibre shipping containers, which is in excess of his entire yearly quota of 27,186 pounds or 192,880 square feet, as provided under Limitation Order L-317. Max M. Leon, doing business as Whole-Sum Products Company, admits the violation as charged, but denies that it was wilful, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Max M. Leon, the Regional Compliance Manager and the Acting Regional Attorney, and upon the approval of the Compliance Commissioner, It is hereby ordered. That:

(a) During the twelve months' period between January 1, 1945 and ending December 31, 1945, Max M. Leon, doing business as Whole-Sum Products Company, his or its successors or assigns, shall reduce his use of new fibre shipping containers by 13,593 pounds or 96,440 square feet (50 percent), under the quota he would otherwise be entitled to use during this period, as specified by the provisions of Limitation Order L-317; unless otherwise authorized in writing by the War Production Board.

(b) During the twelve months' period, beginning January 1, 1945 and ending December 31, 1945, Max M. Leon, doing business as Whole-Sum Products Company, his or its successors or assigns, shall not order, purchase or accept delivery of new fibre shipping containers unless specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Max M. Leon, doing business as Whole-Sum Products Company, his or its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

Issued this 8th day of January 1945.
